ASMI
A-S Medication Solutions

ON-SITE EMPLOYEE HEALTH

In-Clinic Medication Dispensing Program

With a focus on providing convenient and quality medical care for your employee population and the continual rise in annual drug spend isn't the timing right to learn how point-of-care dispensing can help your on-site employee clinic? Learn how the ASM program can boost generic utilization rates, decrease annual drug spend, improve patient adherence and increase employee participation at your Employee Health Clinic.

AS Medication Solutions, offers a convenient, proven method for supplying your patients with the medications they need at the time of their office visit. With over 26 years of industry experience, ASM has been a trusted supplier of pre-packaged medications to over 1,000 employer campuses throughout the United States.

✓ **Product Availability**

Over 2,500 generic, brand name and OTC medications, injectables, creams, ointments, liquids and suspensions

✓ **Turn-Key Program**

Comprehensive product offering including prepackaged medications, dispensing cartridges, pharmacy bags and labels, web-based dispensing program and much more

✓ **Adherence Savings**

Providing medications on-site can greatly increase patient adherence. Patients that are adherent have better control over their chronic health conditions

✓ **Direct Cost Savings**

Our program is proven to save clients over 60% on the exact same pharmaceuticals that their patients are using today

✓ **Cost Avoidance Savings**

Our providers are specially trained to use branded therapies only when medically necessary. Each time a patient is placed on a generic therapy the employer saves over \$1,000 pmpy

✓ **Productivity Savings**

By providing medications on-site at no cost, the employee does not have to leave the workplace to receive their prescription, decreasing the time spent away from the office
